TECHNICAL DATASHEET

T560 — Combination unit

The T560 vertical partition cabinet is designed to be installed in drywall partitions for a discreet architectural solution. The cabinet front is concealed within the partition, and the user sees only a rectangular opening measuring 330mm high by 300mm wide. Space requirements are reduced thanks to the absence of a hinged door. Ideal for compact bathrooms.

Reference	Finish
T560-S	Brushed stainless steel

Characteristics

Finishes	Brushed stainless steel (S)
Dimensions	H1280 x L300 x P112.5mm

Optional accessories

No optional accessories..

Installation information

Complete frame ready to install. Installation is carried out by attaching the aluminum rails fixed to the cabinet to be concealed onto the metal frame for the plasterboard panels.
The first plasterboard panel holds the entire unit in place, and the second panel covers it completely.
All that remains visible is a wall opening measuring H330 x W300mm, as well as the towel dispenser slot.

Maintenance

For optimal maintenance of the furniture, use a soft cotton cloth and dampen it if necessary.
Never use products containing hydrochloric acid, formic acid, acetic acid, or chlorine bleach. Never use abrasive products or tools (scouring liquid, scouring sponge, dish sponge, stainless steel ball, etc.).

Certifications

CE
